

## Competence in Lubricants has a Name

**SRS – THE LUBRICANTS SPECIALISTS**

# COMPETENCE HAS A CONCEPT!

And a name: The SRS Schmierstoff Vertrieb GmbH with its head office in Salzbergen distributes high class brand lubricants as distribution partner of the H&R Chemisch Pharmazeutische Spezialitäten GmbH. As a highly capacity company we guarantee strong partners, excellent products and total customer orientation.

## SUPPLY

### Our Guarantee

The production locations Salzbergen and Hamburg-Neuhof are two of the most modern and efficient lubricant refineries for primary raffinates in Europe. Here the raw materials of consistent origin are refined to become high-class base oils, which are then upgraded to become more than 800 different automotive and industrial lubricants. That's something you can rely on.

The ultimate ambition in the production and distribution of our lubricants are satisfied customers. For this we have initiated an integrated marketing system in the areas of quality management, energy management, safety, environment- and health protection. This has been officially confirmed by SGS, DEKRA, TÜV and DAkkS.

## SUPPORT

### Efficient Structure

Slim structures and flat hierarchies determine and facilitate our daily work. Because of uncomplicated processing you are served fast and straightforwardly according to your wishes. Thus industry and trade are professionally with brand name lubricants at any time.

### Individual Service

Every customer has individual requirements. We comply with them consistently with our wide range of products. Profit from our long standing professional know-how and our technical field service. Our experienced application engineers are schooled permanently and work in constant exchange between innovative developments and their individual experience. Thus not only products are developed but you will also find made special solutions emerge this way.

### Your Advantage

We offer complete, uninterrupted service that means 100% competitive advantage for you. Your advantage and your benefit are our commitment. In all areas of automotive and industrial lubricants we are your competent contact partner.

## PERFORMANCE

---

- devoted and competent staff
- unconditional supply- and quality safety
- highest performance through advanced technology
- customer orientation – also in Research & Development
- fast, flexible and unbureaucratic in all processes
- responsibility for environment and resources

### Blending and Filling

Oils can be refined – processes can be optimized. Smooth distribution needs high-class products and satisfied customers. Both can be achieved through a real and long standing partnership. Our customers rely on us, we guarantee highest quality levels – this is the only way we can work highly efficiently every day. One thing is our main concern in all processes: your satisfaction with all our products.

### First-class Facilities

In the modern blending and filling facility the high-class lubricants are blended and filled. The blending is done via the automatical SMB and DDU method. Also in the downstream area our performance is consistent with the technological progress. We fill our top-quality products into trading units which you need.

# RESPONSIBILITY

---

## Safety First!

Things that sounds so simply are the first and foremost principle of our work. Safety first! And that only be achieved if our performance in all areas of production, consulting and distribution suits your needs. For us safety means giving and taking. We take it from our company structure, which is unique for a medium sized enterprise, and from the know-how of our production partner H&R Chemisch Pharmazeutische Spezialitäten GmbH.

We give it to our environment, to our employees and of course to you – our customers. Measure us against this!

## For the Environment

Each of our staff members is aware of the responsibility, not only for our products and our customers but also for the environment. This is reflected in all our areas of operation. Thus we go below the legally required limit values more than significantly – last but not least because of constant monitoring and investments in this area. The SRS Schmierstoff Vertrieb GmbH is member of the VGÖ – association of self-complying companies.

## And Resources

We can only live up to our high standards by always thinking ahead a little more than the others. Thus our main responsibility lies not only in the production process but in the product itself. Thanks to continuous development we market only products which meet or exceed all the current requirements and specifications. This way we protect the environment and the resources as well as your motors, engines and machineries.

## SRS-BRANDED PRODUCTS

We sell a wide range of high-class lubricant products and specialties with a clear focus on the needs of our customers.

Depending on the area of application, the right choice of oils is crucial for product performance. SRS brand lubricants of the highest quality are extremely versatile. High-quality base oils and specifically tailored additive systems ensure that our lubricants satisfy the extreme requirements to which they are subjected.

### **Automotive Lubricants**

The quality standards of modern high performance engine oil grow with the capacity of the engines and extreme driving conditions. In order to meet them reputable vehicle manufacturers trust in first-class products by SRS.

The motor and transmission lubricants exceed the performance commitment and are recommended by all leading car manufacturers as quality products.

## For Innovative Solutions

Our concept is found in each and every product – and behind this is a strong partner:

**SRS Schmierstoff Vertrieb GmbH**

### Industrial Lubricants

Our SRS brand comply with the highest quality standards and specifications. They excel in the highest possible diversification of application in the areas of all industrial aggregates and machines. Notable partners from all sectors trust in our wide range of products.

### Specialities

In addition to our SRS automotive and industrial lubricants, we offer a wide range of speciality lubricants for special applications.

Customer-specific special solutions are a matter of course for us.

And When May We  
Convince You?
